

In re Application of:  
Peltonen *et al.*  
Application No.: 09/509,595  
Filed: July 5, 2000  
Page 3

PATENT  
ATTY. DOCKET NO.: VOSS1130

### REMARKS

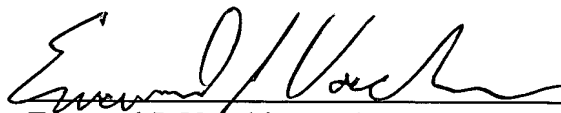

By the present amendment, the enclosed substitute sheets replace pages 1 through 23 of the Sequence Listing. By this amendment, Applicants correct the paper copy of the Sequence Listing that was originally filed with the above-identified patent application on July 5, 2000. SEQ ID NOS:3, 4, 5, 6, and 25 of the originally-filed Sequence Listing, were removed from the sequence listing because they were not referred to in the specification. Furthermore, by the present amendment, Applicants delete the last three nucleotides, encoding a termination codon of SEQ ID NO:6, originally filed SEQ ID NO:10 so that it exactly matches the sequence of FIG. 14. SEQ ID NOS:28, 29 and 30 were added to the amended sequence listing. SEQ ID NO:28 is cited in the specification page 35 as PCR primer B127FR4-21. SEQ ID NOS:29 and 30 are mentioned in the specification of the present application on page 4, last paragraph, as structural motifs of APGDI. Accordingly, no new matter has been added by the submission of the Substitute Sheets to the Sequence Listing.

### CONCLUSION

If the Examiner would like to discuss any of the issues raised in this Amendment or the attached Substitute Sheets to the Sequence Listing, Applicants' representative can be reached at (858) 638-6754.

Respectfully submitted,

Date: April 12, 2002
